Independent Assurance Report

To the management of TrustFactory (Pty) Ltd ("TrustFactory"):

Scope

We have been engaged to perform a reasonable assurance engagement on TrustFactory management's assertion that, for its Certification Authority operations at Firestation, Rosebank, Johannesburg, throughout the period 08 August 2018 to 07 October 2018 for the TrustFactory SSL Root Certificate Authority and the TrustFactory SSL Issuing Certificate Authority (CA), TrustFactory has:

- disclosed in its applicable Certificate Policy and Certificate Practice Statement, located at <https://www.trustfactory.net/repository/>, its certificate lifecycle management business practices and its commitment to provide SSL certificates in conformity with the CA/Browser Forum Requirements on the TrustFactory website, and provided such services in accordance with its disclosed practices;
- maintained effective controls to provide reasonable assurance that:
 - the integrity of keys and SSL certificates it manages is established and protected throughout their lifecycles;

KPMG Inc, a company incorporated under the South African Companies Act and a member firm of the KPMG network of independent member firms affiliated with KPMG International Cooperative ("KPMG International"), a Swiss entity.

KPMG Inc is a Registered Auditor, in public practice, in terms of the Auditing Profession Act, 26 of 2005.

Chairman: W Nkuhlu
Directors: Full list on website

The company's principal place of business is at KPMG Crescent, 85 Empire Road, Parktown, where a list of the directors' names is available for inspection.

TrustFactory (Pty) Ltd
Independent Assurance Report

To the management of TrustFactory (Pty) Ltd (“TrustFactory”):
14 December 2018

- SSL subscriber information is properly authenticated (for the registration activities performed by TrustFactory);
- maintained effective controls to provide reasonable assurance that:
 - logical and physical access to CA systems and data is restricted to authorised individuals;
 - the continuity of key and certificate management operations is maintained;
 - CA systems development, maintenance, and operations are properly authorised and performed to maintain CA systems integrity;
- maintained effective controls to provide reasonable assurance that it meets the Network and Certificate System Security Requirements as set forth by the *CA/Browser Forum* as of the audit period described below

in accordance with the WebTrust *Trust Service Principles and Criteria for Certification Authorities – SSL Baseline with Network Security v2.3*, WebTrust *Trust Service Principles and Criteria for Certification Authorities v2.1*, *ISO/SANS 21188 and Electronic Communication and Transactions Act of 2002 Accreditation Regulations*.

Certification authority's responsibilities

TrustFactory's management is responsible for its assertion, including the fairness of its presentation, and the provision of its described services in accordance with the WebTrust *Trust Service Principles and Criteria for Certification Authorities – SSL Baseline with Network Security v2.3*, WebTrust *Trust Service Principles and Criteria for Certification Authorities v2.1*, *ISO/SANS 21188 and Electronic Communication and Transactions Act of 2002 Accreditation Regulations*.

Our independence and quality control

We have complied with the independence and other ethical requirements of the *Code of Professional Conduct* for Registered Auditors, issued by the Independent Regulatory Board for Auditors (IRBA), that is consistent with the International Ethics Standards Board for Accountants *Code of Ethics for Professional Accountants* (Parts A and B), which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

The firm applies International Standard on Quality Control 1, and accordingly maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

TrustFactory (Pty) Ltd
Independent Assurance Report

To the management of TrustFactory (Pty) Ltd (“TrustFactory”):
14 December 2018

Practitioner's responsibilities

Our responsibility is to express an opinion on management's assertion based on our procedures. We conducted our procedures in accordance with International Standard on Assurance Engagements 3000 (Revised), *Assurance Engagements Other than Audits or Reviews of Historical Financial Information*, issued by the International Auditing and Assurance Standards Board. This standard requires that we plan and perform our procedures to obtain reasonable assurance about whether, in all material respects, management's assertion is fairly stated, and, accordingly, included:

- obtaining an understanding of TrustFactory's key and certificate lifecycle management business practices and its controls over key and certificate integrity, over the authenticity and confidentiality of subscriber and relying party information, over the continuity of key and certificate lifecycle management operations and over development, maintenance and operation of systems integrity;
- selectively testing transactions executed in accordance with disclosed key and certificate lifecycle management business practices;
- testing and evaluating the operating effectiveness of the above controls; and
- performing such other procedures as we considered necessary in the circumstances.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Relative effectiveness of controls

The relative effectiveness and significance of specific controls at TrustFactory and their effect on assessments of control risk for subscribers and relying parties are dependent on their interaction with the controls, and other factors present at individual subscriber and relying party locations. We have performed no procedures to evaluate the effectiveness of controls at individual subscriber and relying party locations.

Inherent limitations

Because of the nature and inherent limitations of controls, TrustFactory's ability to meet the aforementioned criteria may be affected. For example, controls may not prevent, or detect and correct, error, fraud, unauthorised access to systems and information, or failure to comply with internal and external policies or requirements. Also, the projection of any conclusions based on our findings to future periods is subject to the risk that changes may alter the validity of such conclusions.

TrustFactory (Pty) Ltd
Independent Assurance Report

To the management of TrustFactory (Pty) Ltd (“TrustFactory”):
14 December 2018

Opinion

In our opinion, throughout the period 08 August 2018 to 07 October 2018, TrustFactory management's assertion, as referred to above, is fairly stated, in all material respects, in accordance with the WebTrust *Trust Service Principles and Criteria for Certification Authorities – SSL Baseline with Network Security v2.3*, WebTrust *Trust Service Principles and Criteria for Certification Authorities v2.1*, ISO/SANS 21188 and *Electronic Communication and Transactions Act of 2002 Accreditation Regulations*.

This report does not include any representation as to the quality of TrustFactory services beyond those covered by the WebTrust *Trust Service Principles and Criteria for Certification Authorities – SSL Baseline with Network Security v2.3*, WebTrust *Trust Service Principles and Criteria for Certification Authorities v2.1*, ISO/SANS 21188 and *Electronic Communication and Transactions Act of 2002 Accreditation Regulations*, nor the suitability of any of TrustFactory services for any customer's intended purpose.

Use of WebTrust's Seal for Certification Authorities

TrustFactory's use of the WebTrust for Certification Authorities Signing Seal constitutes a symbolic representation of the contents of this report and it is not intended, nor should it be construed, to update this report or provide any additional assurance.

Restriction on use

As indicated, this report is for the purpose of providing information to the AICPA/CPA Web Trust Certification Authorities in order to obtain Web Trust Certification and may not be suitable for any other purpose. This report is also intended for customers who have used TrustFactory's services who have a sufficient understanding to consider it, along with other information including information about controls operated by customers themselves, when obtaining an understanding of customers' information systems.

Yours sincerely,

KPMG Inc.

TrustFactory (Pty) Ltd Management's Assertion

TrustFactory (Pty) Ltd (hereafter referred to as "TrustFactory") operates the Certification Authorities services known as:

- TrustFactory SSL Root Certificate Authority and
- TrustFactory SSL Issuing Certificate Authority (CA), and

provides the following CA services:

- Subscriber registration
- Certificate renewal
- Certificate rekey
- Certificate issuance
- Certificate distribution
- Certificate revocation
- Certificate validation

TrustFactory management has assessed its disclosures of its certificate practices and controls over its SSL CA services. Based on that assessment, in providing its SSL CA services at Firestation, Rosebank, Johannesburg, throughout the period 08 August 2018 to 07 October 2018, TrustFactory has:

- disclosed in its applicable Certificate Policy and Certificate Practice Statement, located at <https://www.trustfactory.net/repository/> on the TrustFactory website, its business, key lifecycle management, certificate lifecycle management business practices, CA environmental control practices and its commitment to provide SSL certificates in conformity with the CA/Browser Forum Requirements, and provided such services in accordance with its disclosed practices;
- maintained effective controls to provide reasonable assurance that:
 - the integrity of keys and SSL certificates it manages is established and protected throughout their lifecycles;
 - SSL subscriber information is properly authenticated (for the registration activities performed by TrustFactory); and

Telephone: +27 11 880 6103
Fax: +27 11 880 5443
Website: www.trustfactory.net

P.O Box 802
Saxonwold, 2132
Gauteng, South Africa

6th Floor, Firestation Rosebank
16 Baker Street
Rosebank, 2163
Gauteng, South Africa

- maintained effective controls to provide reasonable assurance that:
 - logical and physical access to CA systems and data is restricted to authorised individuals;
 - the continuity of key and certificate management operations is maintained;
 - CA systems development, maintenance, and operations are properly authorised and performed to maintain CA systems integrity
- maintained effective controls to provide reasonable assurance that it meets the Network and Certificate System Security Requirements as set forth by the CA/Browser Forum for the audit period mentioned above.

in accordance with the WebTrust *Trust Service Principles and Criteria for Certification Authorities – SSL Baseline with Network Security v2.3*, *WebTrust Principles and Criteria for Certification Authorities v2.1*, *ISO/SANS 21188* and *Electronic Communication and Transactions Act of 2002 Accreditation Regulations*.

TrustFactory does not escrow its CA keys, does not provide subscriber key generation services, and does not provide certificate suspension services. Accordingly, our assertion does not extend to controls that would address those criteria.

TrustFactory (Pty) Ltd

Mr Jayesh Nana
Chief Executive Officer
