

# Instructions: Purchase an Organization Pass Certificate (Platform Certificate-AATL)

#### Summary Steps:

These are Adobe Approved Trust List certificates.

These are mainly platform certificates that are used inside a software signing service. These certificates are not paired with our Cloud Hosted Key service yet (CumuloKey). This is coming soon. Thus, a physical token will need to be used until the cloud services are available.

The signature on the document is in the name of the Organization and not the end user of the document.

To purchase and install an organization pass certificate onto your signing platform you will need to:

- 1. Proceed to **purchase an organization pass certificate** from the TrustFactory website by selecting the certificate, term length and adding that to the cart
- 2. You will be prompted to either **purchase a smart card token**, or state that you have an existing token. The token must be **a PKI token that is FIPS level 2 compliant**. Your private key will need to be generated on this token and the CSR shared with TrustFactory
- 3. You will be required to register an account with TrustFactory, or login to an existing account
- 4. You will then need to complete your order in terms of the remaining steps:
  - a. Create Order- Enter details you would like must appear on your certificate
  - b. Billing and Shipping Address: Complete these details
  - c. Make Payment
  - d. Await delivery of your physical token
  - e. Generate a CSR for Smart Card Token (See Support for more information).
    - i. If you have your own FIPS compliant token, generate a CSR on that Smart card
    - ii. If you have purchased a physical token from TrustFactory, you will need to wait for the token to be delivered to you and then generate the CSR on this TrustFactory token
  - f. Complete the Upload of Documents

Please note you are required to upload:

- i. Copy of Organization's government issued registration document
- ii. Organization Proof of address
- iii. An authority letter per the template provided
- 5. Await the finalisation of your order. Once finalised the certificate will be issued.
- 6. Install the certificate. (See installation instructions per relevant document)

### **Detailed Steps:**

The below document details the purchasing and order completion steps mentioned above

## **Purchase an Organization Pass Certificate**

To Proceed with the Purchase:

- 1.1. Go to the task menu on your computer and type "Chrome"
- 1.2. Select the Google Chrome browser from the search results

- 2. Enter the following URL: <u>https://www.trustfactory.net/</u>
- 3. Hover on the "Shop" tab and click on "Individual"

Instructions: Purchase an Organization Pass Certificate (Platform Certificate- AATL)

- 4. Select Organization Pass
- 5. Select applicable term length you would like to purchase certificate for
- 6. Click on the "Add to Cart" button

	ORGANIZATIONPASS

#### **ADDITIONAL PRODUCT**

 $\otimes$ 

TrustFactory PersonalPass and PersonalPass Premium certificates comply with the Adobe Approved Trust List (AATL) Technical Requirements which specify that the end-user must generate and protect key pair(s) for the supplied certificate(s) in a medium that prohibits exportation and duplication that could allow unauthorized use of the private or secret keys.

The suitable medium is considered a hardware security module that meet FIPS 140-2 Level 2 or equivalent such as the TrustFactory ePass FIPS token. A CloudSign Subscription is a cloud-based alternative which stores your private keys securely in cloud infrastructure using hardware security modules that meet FIPS 140-2 Level 2.

I already have an existing token

O Physical Token (\$25.00)

CONTINUE 🕂

TrustFactory Individual certificates comply with the Adobe Approved Trust List (AATL) Technical Requirements which specify that the end-user must generate and protect key pair(s) for the supplied certificate(s) in a medium that prohibits exportation and duplication that could allow unauthorized use of the private or secret keys.

The suitable medium is considered a hardware security module that meet FIPS 140-2 Level 2 or equivalent such as the TrustFactory ePass FIPS token.

- 7. You will be asked whether
- you have an existing token that meets the FIPS 140-2 level 2 requirements or
- whether you would like to buy a Smart Card (Physical) token
- 8. Select the appropriate option that meets your needs
- 9. You will then be directed to the checkout page.
- 10. Click on proceed to checkout
- 11. You will be prompted to register or login
- 12. If you are a new user, please register an account by completing the required fields and click on register
